

I would like to invite you to participate as an exhibitor in the Kids Zone at the 2022 Houston/Galveston Extreme Weather Ready Expo. The Expo has expanded its focus to help area citizens prepare for the many types of extreme weather situations that have, and will again, strike this region—hurricanes, heavy rains, floods, ice, etc. This free event is family-friendly and open to the public.

The Expo is scheduled for **Saturday, June 11, 2022 with the Kids Zone being open from 10:30 AM to 2:30 PM**. This award winning public workshop is the largest event of its type in the nation with over 2,500 attendees annually and will take place at the George R. Brown Convention Center. As always, there is no charge for Kids Zone exhibitors. Please join us in educating our youngest citizens and their families about extreme weather.

Booth spaces are 10' x 10', unless you specify that you need a larger space. A six-foot table with two chairs will be provided. Each table will be skirted, although you are welcome to use your own tablecloth with your company's logo on it. Unfortunately, there is no free parking available. Paid parking may be found on nearby city streets and in the lots adjacent to the GRB Convention Center. Lunch tickets will be provided to exhibitors.

We ask that you complete your booth's **setup by 9:30 AM** at the latest. An opening ceremony for the Expo will be conducted at 10:00 AM and the Kids Zone will officially open at 10:30 AM.

Please fill out the form below and email it back to me before **Friday, May 20, 2022**. Information and forms may also be found on the event's website: (www.weatherreadyexpo.com) Electricity will be provided free of charge if you request it before the event. We request that you plan hands-on activities for the young visitors to your booth. Displaying information about your organization and programs is encouraged.

Do not hesitate to contact me with any questions or concerns. Thank you and we look forward to working with you at the Extreme Weather Ready Expo on June 8th.

Best regards,

Ryan Prillman
